Dear Nigel:

The drill shaft operation for the project has completed and we are very pleased with the outcome. Your staff was knowledgeable and talented, especially your Superintendent, Terry Miller and Project Manager, Stu Williams. The FDOT was also pleased with the performance and quality of work. Again, I would like to thank you and your staff for doing excellent work, I hope that we can team up on future projects.

Should you have any questions regarding this matter, please call me at (904) 292-4240.

Sincerely,
Superior Construction Company, Inc.
